EXPERIENCE

Technical Account Manager

Jan 2025 - Mar 2026

Deputy, Melbourne, Australia

- Owned 10+ complex enterprise and mid-market SaaS implementations across APAC and AMER, leading discovery, solution design, technical configuration and cross-functional delivery
- Drove implementations toward early value and on-time activation by defining delivery plans, resolving setup blockers and coordinating Engineering, Support and external stakeholders against key milestones
- Acted as a trusted consultant and product expert across a \$1.5M+ ARR portfolio, advising customers and internal teams on workflow design, account setup and post-launch actions needed to drive adoption
- Managed relationships with senior and operational stakeholders throughout the project lifecycle, using strategic calls to maintain momentum, manage escalations and hold project participants accountable
- Quickly developed deep product expertise and translated complex platform capabilities into practical solutions for workforce, payroll and compliance workflows
- Used platform audits and frontline account insight to identify risks early, influence Engineering and customer-facing priorities and surface growth opportunities across shared accounts.
- Built a three-part enterprise audit process from scratch to resolve ongoing technical issues, rebuild stakeholder trust and scope a new \$16K greenfield project, becoming the assigned technical advisor
- Built JavaScript API scripts that reduced complex platform configuration from 6 hours to 20 minutes, creating a faster and more scalable implementation process
- Created client-facing documentation and enablement materials through SalesHood and Confluence, improving customer understanding and supporting ongoing platform adoption

Customer Success Coordinator

Feb 2024 - Dec 2024

Lexer, Melbourne, Australia

- Managed post-sales onboarding and advisory across a \$500K+ APAC portfolio of retail and lifestyle brands, supporting platform adoption, customer data workflows and marketing campaign optimisation
- Delivered 10+ one-to-many product training sessions for customer and internal teams, tailoring demonstrations and guidance to audience workflows, technical confidence and business use cases
- Used Mixpanel product usage data, customer sales data and frontline account insight to identify adoption risks, guide strategic recommendations and share priorities with Product, Sales and Customer Success
- Gathered customer feedback through training sessions, strategic meetings and business reviews, sharing recurring themes with internal teams to strengthen product guidance and adoption support
- Facilitated a custom integration project by reviewing external API documentation, gathering customer requirements and leading data-mapping discussions that converted into a \$15K engagement

EDUCATION

Monash University, Bachelor of Media Communication

Feb 2022 - Dec 2023
